

School Building **GROUND BREAKING EVENTS**

ASDOE SCHOOL LUNCH WAREHOUSE

Ground Breaking

With the groundbreaking of the new School Lunch Program Warehouse, the American Samoa Department of Education (ASDOE) commemorates an important accomplishment. This building will improve the ability to prepare and serve wholesome meals to kids throughout the territory, guaranteeing that every child has access to healthy food. To commemorate the start of this crucial project, which demonstrates the dedication to the success and well-being of our children, ASDOE leaders, public servants, and community members convened.

Leone High School JROTC

The American Samoa Department of Education declared that the launching of Leone High School's new JROTC building marked the happy beginning of a new chapter for the institution. The endeavor is a manifestation of ASDOE's unwavering commitment to providing American Samoan students with access to excellent education and building better futures for them.

Tafuna High School Multipurpose Facility

In an exciting milestone for Tafuna High School, the American Samoa Department of Education (ASDOE) held a groundbreaking ceremony for the construction of a new multi-purpose building. This facility will serve as a center for various academic and extracurricular activities, enhancing student engagement and community involvement.

Olomoana Elem. School Multipurpose

ASDOE breaks ground on a new multipurpose facility for Olomoana Elementary School and the village of Aoa, which is exciting news. This new facility will be a vital location for kids to improve their physical well-being and engage in other extracurricular activities. Building a better future for American Samoan children, the project demonstrates the department's steadfast dedication to giving our pupils an excellent education.

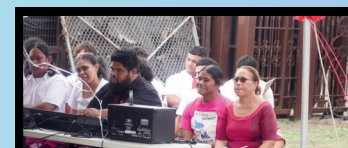

Afonotele Elem. School Multipurpose

Afonotele Elementary School and the village of Afono celebrated the groundbreaking ceremony for the school's new multipurpose building today, marking a significant milestone. A focal point for physical education and other extracurricular activities, the new gymnasium will revolutionize the school. The event simply marks the beginning of this important endeavor, indicating the commitment to our kids' achievement and welfare.

Pavaia'i Elem. School Multipurpose

The groundbreaking ceremony for the construction of a new multipurpose building was held by the American Samoa Department of Education (ASDOE), marking an exciting milestone for Pava'ia'i Elementary School. This facility will act as a hub for a range of extracurricular and academic events, increasing community involvement and student engagement

Teacher of the Year Annoucement

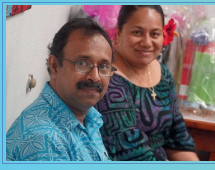

Congratulations to Our Outstanding Teachers of the Year!

The American Samoa Department of Education proudly recognizes the exceptional dedication and hard work of our School Teachers of the Year 2024-2025, who have gone above and beyond to inspire and educate our students. These educators, representing schools across the territory, have showcased their passion for teaching, commitment to excellence, and ability to create positive learning environments.

We extend our heartfelt congratulations to all the finalists who competed for the prestigious title of Territorial Teacher of the Year (TTOY). Each of you exemplifies the very best in education, and we are honored by your service and contributions to shaping the future of American Samoa.

Congratulations to Mikaela Saelua from Leone High School, this year's Territorial Teacher of the Year! Your dedication, innovation, and leadership have set a remarkable standard for educators throughout our islands. Thank you for your continuous efforts to make a lasting impact on our students, schools, and community.

THIS VEX ROBOTIC LIVE TOURNAMENT

JROTC Live Remote Skills Event allows JROTC teams from all branches to compete for a spot at the VEX Worlds in Dallas, Texas. This event requires the competing teams to go live using a webcam on a Google Meet site provided by the REC Foundation, which hosts the event. Upon entering the live room, the host will place the teams in the competition room, where a referee will inspect their robot and the competition field. Upon a successful inspection, the skills competition will proceed and consist of the best out of 3 for the driver portion and the best out of 3 for the autonomous portion. This season's game is called High Stakes, where teams try and get as many rings into a stake in a 60-second time limit. The team that can score the most wins. In the Live Remote Skills event, 6 teams competed from across the country: Alabama, Texas, California, Kansas, and last but not least, American Samoa. Team 2111A had the second-highest score of the evening, with 47. Team A did 33 on their driver attempt and 14 on their auton attempt. Team 2111B did an overall score of 33, earning the 4th highest score of the evening. You can find more information on the teams who competed and their scores by visiting this website:

Middle School Career Awareness Fair!

Building Tomorrow Today:

Inspiring Career Awareness for Young Minds — Elementary students explored possibilities at our Middle School Career Awareness Fair, discovering paths and passions for their future careers. Hands-on activities and engaging sessions inspired young minds to dream big and build tomorrow today!

"Science Sustainable Future"

The Science Committee at Manulele Elementary School organized a Science Week-themed "Science for a Sustainable Future." As part of the program, guest speakers participated in read-aloud sessions and discussed the significance of technology in their work. Representatives from the ASDOE Public Relations Office and the Technology Integration Office served as guest speakers. Fa'afetai Tele for the invitation Manulele Elementary School!

2024 Coast Week Cricket Champion 'American Samoa Department of Education'
